First Mock: Based on the information provided during the consultation call, our developers will design a template **First Mock**—which includes your chosen color scheme, logo, and images—and send it for approval. If any changes are needed, one round of revisions in a single email can be submitted by replying to the email.

Important: You will be required to outline all errors in one email. Additional changes submitted requiring design, image, or content edits will be charged at an hourly rate.

Please note that if no response is received within 2 business days, we will set your site live with the provided/purchased domain name.

Your website is now LIVE and on the World Wide Web: You will receive a confirmation email with a link to your website.

Important Notes:

- The site build timeline of 25 **Production** days begins from the day we complete the consultation call.
- Timelines may vary based on client responsiveness and delays in providing the required assets.
- **Timeline is considered paused while waiting on customer response.** We will send 2 reminders when waiting on customer (1 per week), and if no response is received, the site production will be put on hold.
